Mr. Teitzel,

It has been over two months since we contacted you with concerns about the use of drones on the John Day River by Oregon Public Broadcasting. Some time ago you emailed me promising a response but we have not heard anything further from you. We would love to hear back concerning the status of this matter. For your convenience I have attached a copy of my earlier inquiry.

This is a subject of public interest and information related to this matter will be posted on the Wilderness Report website.

Thank you for your assistance.

Sincerely,

Arthur Pope  
Executive Director
